

Junior School Eco Code

We like turning off the tap
And switching off the light
We like insulation
And computers off at night
We like litter in the bins
A playground nice and clean
We like planting trees and
flowers
And keeping our school green

We like, we like our school
THINK GREEN!
But best of all, we all like life
OUR WORLD!
We like, we like our school
THINK GREEN!
But best of all, we all like life

We like our school forest
And recycled buggy park
We like Outdoor Learning
Taught how to make our mark
We like trying not to waste
We recycle or reuse
We know that if we don't help
Our planet we will lose

We like all the animals
And all the plants and flowers
To keep our planet living
It's for us, the job is ours
We like to protect our earth
And know that we won't quit
But we know to make it work
We each must do our bit
